DETAILED ACTION

Re: Holaday *et al*

1. The amendment filed 12/18/2006 and 1/16/2007 are acknowledged and entered into the record. Accordingly, claim 4 is canceled without prejudice or disclaimer, and claims 12-13 are newly added. Claims 1-2 are withdrawn from further consideration as being drawn to non-elected subject matter.
2. Claims 3, and 5-13 are pending and examined on the merits.

Claim Rejections Maintained - 35 USC § 112, 1st paragraph

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. The rejection of claims 10-11 and now newly added claims 12-13 under 35 USC § 112, 1st paragraph as lacking an enabling disclosure is maintained for the reasons of record. Applicant argues that the claim amendments overcome the instant rejection because the claim have been amended to only recite a reduction of hyperproliferative disorders. Applicant's arguments have been carefully considered but are not deemed persuasive to overcome the rejection of record.

Although the claims have been limited to a composition capable of reducing hyperproliferative disorders, the claims still recite the term "vaccine" which carries with it an implied preventative capacity for the treatment of diseases such as cancer. As

Art Unit: 1643

indicated in the previous office action mailed July 17, 2006, the current state of the art is extremely unpredictable with regards to "preventing" cancer and the instant specification has failed to provide one of skill in the art with adequate guidance for the use of a composition comprising SEQ. ID No: 10 in the prevention of cancer as encompassed by the claims.

Therefore, the rejection of claims under 35 USC § 112, 1st paragraph is maintained for the reasons of record.

Claim Rejections Maintained - 35 USC § 102

5. The rejection of claims 3,5-11, and now to newly added claims 12-13 under 35 USC § 102(b) as being anticipated by Holaday *et al* (WO 00/53219) is maintained for the reasons of record. Applicant argues that the instant application and the cited prior art reference share a common inventor and have further set forth that there was an unintentional delay in filing a priority claim. Applicants have indicated that a petition has been filed to accept an unintentional delay in claiming priority. Applicant's arguments have been carefully considered but are not deemed persuasive to overcome the rejection of record.

Upon review of the petition decision mailed 3/19/2007, the Office of Petitions has DISMISSED the petition for acceptance of a claim for late priority under 37 CFR §§1.78(a)(3) and 1.78(a)(6). (see petition decision mailed 3/19/2007). Applicant has failed to provide any further rebuttal to the prime facie case of anticipation set forth in

Art Unit: 1643

the office action mailed July 17, 2006. Therefore, the rejection of claims under 35 USC 102(b) as being anticipated is maintained for the reasons of record.

Conclusion

No claim is allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
